DETAILED ACTION

1. The Final Office Action of 23 November 2007 is hereby withdrawn in view of applicants' request for suspension of action filed with RCE of 30 October 2007.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 28-33, 45-49 and 51 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The claims recite "An article comprising a tangible machine readable medium that stores a program, said program being executable by a machine to perform a method" followed by the recitation of a plurality of steps, but paragraphs 0034 and 0035 of the specification define the "machine readable medium" as including a transmission medium, e.g. carrier waves. Since the original specification does not even contain the word "tangible" the adding of the term "tangible" to the phrase "machine readable medium" fails to clearly limit the phrase. Certainly it does not limit it to being "tangible" in the legal sense. Therefore the claims fail to fall within any of the statutory categories of invention because the claims merely recite a form of energy.

Relative to applicants' remarks, the mere labeling of a medium as "tangible" does not necessarily make it "tangible" in the legal sense of the term. As set forth on paragraphs 0034

and 0035 of the specification the term medium includes signals and the adding of the term tangible to modify medium in the claims is not sufficient to exclude signals.

Allowable Subject Matter

3. Claims 1-10, 15-27 and 34-43 are allowed.

Conclusion

4. This is a RCE of applicant's earlier Application No. 10/612,061. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

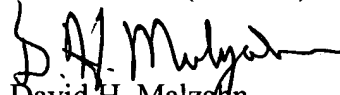

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
